

XC4

Commercial Series Automatic Voltage Regulator

The XC4 Automatic Voltage Regulator is the latest addition to Power-Tronics' line of universal voltage regulators.

Based on the Volt-Pro VP series of voltage regulators, the XC4 features a ruggedized design and many "under the hood" tweaks and modifications to deliver an extremely robust voltage regulator in a tiny package (4.1" x 2" shown actual size above) and at an attractive price!

Designed from the outset for commercial, standby, and residential applications, the XC4 is optimized for easy installation, easy setup, and easy service in the field. The 4-wire hookup, flexible operating conditions, and compact form factor make the XC4 a must-stock item for a generator service technician! Besides the rugged design, precise regulation, and unmatched technical support, the XC4 now proudly offers a one-year factory warranty! All Power-Tronics products are **PROUDLY DESIGNED, MANUFACTURED, AND TESTED IN KERRVILLE, TX**

Product Features:

- Half-Wave rectified, 120-240V operation, adjustable
- 4A Continuous rating
- .75% Regulation accuracy NL-FL
- <1% Thermal drift 0°C – 60°C
- Idle protection circuit prevents building full voltage at idle
- Compatible with 50 or 60Hz generators
- Compact size
- Simple setup and adjustment procedure
- Fully encapsulated design for extreme operating conditions
- Passive cooling doesn't require forced air for reliable operation
- ONE YEAR factory warranty

For Over 25 Years:
Simple. Reliable. Affordable.
