

XR500B-400

Specialty Series

400Hz Universal Voltage Regulator

The XR500B-400 400Hz Universal Voltage Regulator is designed for flexible and universal operation on 400Hz generators and aircraft GPU systems.

Over 15 years of field operation has proven the XR500B-400 to be an unusually durable regulator! For more demanding installations, the XR500B-400 is compatible with all of Power-Tronics add on modules and accessories and is capable of replacing a large range of other makes and models of voltage regulators!

The XR500B-400 is designed for easy installation, easy setup, and easy service in the field. In addition to the rugged design, precise regulation, and unmatched technical support, the XR500B-400 sports an industry-leading 2 year factory warranty! All Power-Tronics products are **PROUDLY MADE IN THE USA!**

Product Features:

- Universal Design, Full-Wave or Half-Wave rectified, user-selectable
- 5A Continuous rating, 5A fusing
- 1% Regulation accuracy NL-FL
- Flat-response design ensures consistent voltage regardless of engine RPM
- Compatible with 400Hz generators
- Compatible with past or present Power-Tronics accessories
- Repairable circuit card
- Simple setup and adjustment procedure
- TWO YEAR factory warranty

For Over 25 Years:

Simple. Reliable. Affordable.
